Welcome!

Becoming a Chapter President gives you the unique opportunity to spark real change in your community by empowering the next generation of leaders. You'll also join a passionate global movement of young changemakers who are confidently shaping a brighter future.

If you're ready to develop your leadership skills, make a lasting impact, and be part of something greater than yourself, this role is made for you. We're here to support and guide you every step of the way—together, let's create something extraordinary!

Chapter President Responsibilities

Chapter Presidents enjoy great flexibility in how they bring youth leadership to their communities. Whether it's curating relevant leadership resources, leading workshops, creating online courses, translating materials, or exploring your own passions as a teaching tool — the possibilities are endless! Lead Forward to help you succeed every step of the way. The only four requirements are:

1. Monthly Check-Ins

Quick end-of-month forms where you share a brief update on what you've been working on.

2. At Least 2 In-Person Workshops (Or Other Events) per Semester

In-person events (workshops, conferences, seminars, etc.) are honestly super simple and easy to organize since we support you with a wealth of resources, personal tips and mentorship, and financial assistance!

3. Succession Plan

Seniors are required to have someone younger step in to continue the chapter after graduation.

4. Leadership Without Borders Participation

Leadership Without Borders is a video series featuring youth leaders globally. All you need to do is respond to 2 quick leadership prompts per semester!

Why It's Worth It

Step into a role that not only boosts your resume and earns valuable community service hours but also transforms you into a confident, capable leader.

Experience the incredible satisfaction of making a real, lasting difference in your community, inspiring others along the way.

Join a vibrant global network of passionate young leaders who are changing the world—together.
